

## Firm Overview

### Services

---

- Computer forensics / Data forensics
- Expert witness
- Tracing source of attacks
- Data Recovery
- E-Discovery
- Document review hosting
- Copyright issues analysis
- Software reverse engineering

### Case Profiles

---

- **Misappropriation of trade secrets** case where we uncovered purpose-built software which facilitated **unauthorized access** to our client's intellectual property.
- **Labor dispute** case involving a newspaper and over 80 employees' workstations.
- **Copyright** case involving the determination of software authorship. Controverted opponents claim of substantial ownership by showing they had contributed only .01% of source code.
- **Securities** case involving misappropriation of trade secrets and redirection of company funds.

### Background

---

**Federal Forensics Group** is a veteran of over 200 cases and numerous trials in Federal and State courts.

- We work with litigation issues involving intellectual property, trade secrets, data forensics, security, e-discovery and labor/employment concerns.
- Our work has helped generate awards at trial in excess of \$40,000,000.
- Our staff teaches advanced computer forensics at Cal State University Fullerton, Extended Education.
- Our President, Eric Robi is the immediate past-president of the Forensic Expert Witness Association, Los Angeles chapter and served as the Secretary for the national board. He is a Certified Computer Examiner.
- Our work has helped trace and prove cases involving misappropriation of trade secrets.
- Our clients include a Japanese auto manufacturer, Lewis Brisbois, Bisgard & Smith, Paul Hastings, TriWest Healthcare, Knobbe Martens and dozens of mid-sized and small law firms.

# Computer Forensics

All the technology, services and consulting required to assist with the preservation, collection, investigation, analysis, and reporting of electronic

We have an experienced staff of certified computer forensic professionals available to assist with the preservation, collection, investigation, analysis, and reporting of electronic stored information (ESI). Whether your project involves data recovery, analysis or expert testimony, we have the experience to assist.

## Certified Computer Forensic Professionals

We offer computer examiner experts, many whom are former and current law enforcement and members of the International Association of Computer Investigative Specialists (AICIS) that hold their Certified Forensic Computer Examiner (CFCE) certification. Many of our digital investigator experts are also members of the International Society of Forensic Computer Examiners (ISFCE) and hold their Certified Computer Examiner (CCE) certification.

## Leading Computer Forensic Technology

Our certified computer examiners use the most advanced tools on the market including software from AccessData (Forensic Toolkit - FTK) and Guidance Software (EnCase).

## Computer Forensic Services

We have an experienced staff of certified computer forensic professionals available to provide the following services through the US, Canada and Europe:

- Case and Project Planning and Consulting
- Preservation
- Collection
- Investigation
- Analysis
- Reporting
- CCE Certification and Training
- Expert Testimony
- Complex Data Recovery
- Backup Tape Restoration
- Password Cracking

## Computer Forensic Training

Along with our partners we offer courses ranging from one-day introductory classes and sales certifications intended to train clients on the basics of computer forensics to intensive full week Certified Computer Examiner (CCE)® Bootcamps and advanced forensic training on vendor specific tools. In addition, we offer a full range of online classes and certifications.

## The New Challenge

Litigation today is increasingly complex. Cases take longer, involve more people, require more information and demand faster access to information. Controlling costs while staying responsive to clients, the court, and opposing counsel, is a constant challenge.

## The Right Solutions

Our professionals offer a single source for legal solutions that keeps cases on track and expenses down. From litigation support to information management tools to electronic and print document management services, our comprehensive and integrated suite of services and advanced technology adapts to your needs throughout the litigation process.
